How to: create new account

To create a new user account, the customer should follow these steps:

- Open a web browser and navigate to the URL: https://ticketing.dome-marketplace-dev.org/
- Look for "**Register as a new user"** option at the bottom of the login page, as you can see from the screenshot below.

- After entering the required information, the system requires email verification. Check your email for a confirmation link and follow the instructions.
- Once your account is created and verified, return to the login page and log in using your newly created credentials.
